Experience

V4U Tracking Solutions Limited

Oct 2023 - Mar 2025

Software Developer

- Developed and deployed mobile apps for iOS and Android using React Native.
- Integrated APIs, optimized app performance, and deployed apps to the Apple Store and Google Play Store.
- Developed responsive websites using PHP and Bootstrap, and created an invoice generator app with PHPMaker.

Fulambri Text Com Pvt. Ltd.

Jul 2025 – Present

Frontend Developer

- Working as a Frontend Developer using Next.js to build modern, scalable, and SEO-friendly web applications.
- Developing reusable UI components and implementing responsive designs using modern CSS frameworks.
- Collaborating with backend and design teams to integrate APIs and improve user experience.

Projects

Locom Mobile Application | ▶

- Developed and deployed the "Locom" mobile application for both iOS and Android using React Native.
- Integrated Firebase for backend services, OTP verification, chat functionality, and secure payment methods.
- Solved various errors, optimized app performance, and ensured robust database connectivity.
- Successfully published the application on the Apple App Store and Google Play Store.

Developed and Deployed Responsive Websites, "Rddhoot" and "Nandaniimpex".

- Utilized PHP, JavaScript and Bootstrap for website development
- Created comprehensive admin panels for both websites using PHP Maker for content management.
- Ensured optimal performance and user experience across various devices and browsers.

Time Track Application |

- Built an attendance tracking app using MERN stack with separate web and mobile interfaces.
- Created admin dashboard in React to monitor users and send individual/group notifications.
- Developed React Native app for users to view attendance and receive alerts.
- Ensured smooth, responsive UI for both admin and user platforms.

Education

CSMSS, Chh. Shahu College Of Engineering
